

# Do YOU Want a New Body?

**SAXON,**  
The World-Famous  
Strong Man Says:

"My feats of strength on the stage have brought me hundreds of inquiries from men asking how I developed such extraordinary strength. I tell them all to write to Titus; he'll show them how to develop physical power that will amaze them. His discovery of the principal of Muscle Concentration alone will DOUBLE anyone's strength. I suggest that every red-blooded man should send for that marvelous Titus book 'MIRACLES IN MUSCLE'."

"Talk about your surprises! I've had mine. I wish you could see the rippling of my advancing muscles! I have noticed a new network of strength in my internal system. And the muscles I have acquired are hard as rocks! Have you any persons who are interested in your training but are still hesitating? If so, I wish you would have them write me. I'll tell them a few things that will make them sit up and take notice."

"I can tell the world I was sickly and thin one time. I was sick in bed half the time. I wasted about a year with a whole lot of junk; didn't do me any good at all. Then I sent for your course. When I got your Course I changed almost over night. My soft body became as hard as a rock—strong and healthy. There is no reason why anyone should be weak and skinny."

"It gives me great pleasure to say a few words of praise for your wonderful new and original method of physical development. I have, naturally, made quite a study of physical and muscular development, but the new and entirely original methods you have evolved are far above anything I thought possible. Your apparatus, the Progressive Muscle Builder, is the greatest invention in its line that I have ever seen."

"Your Apparatus and Exerciser are certainly all you claim for them and more. Using them only a few minutes a day under your supervision has done wonders for me. Friends hardly recognize me. I have improved so much."

"The automatic and progressive features of your Apparatus have been praised in the highest terms by the Athletic Coach here."
